DETAILED ACTION

Application Status

Claims 1-2 and 6-27 are currently pending in the instant application.

In response to a previous Office action, a non-final action (mailed on July 11, 2007), Applicants filed an amendment on October 10, 2007, amending claims 1, canceling claim 3 and adding new claims 22-27 is acknowledged. Claims 6-9, 12-21 remain withdrawn as drawn to non-elected invention. Claims 4 and 5 remain cancelled.

Claims 1-2, 10-11 and 22-27 are now under consideration and will be examined herein.

Election/Restriction

Claims 1-2, 10-11 and 22-23 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(b), claims 12-13, 15, and 17-21, are directed to the process of using the allowable product, previously withdrawn from consideration as a result of a restriction requirement, mailed on 12/29/2007 is hereby rejoined and fully examined for patentability under 37 CFR 1.104. Claims 6-9, 14 and 16 directed to the invention(s) of Group II, III (partial) and IV (partial) not requiring all the limitations of the allowable product claim, have NOT been rejoined.

Because a claimed invention previously withdrawn from consideration under 37 CFR 1.142 has been rejoined, **the restriction requirement of groups I (claims 1-2), III (claims 12-13 and 18), V (claim 15), VI (claim 17), VII (claim 19), VIII (claim 20) and IX (claim 20) as set forth in the Office action mailed on 12/19/2005 is hereby withdrawn.** In view of the

withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Tu A. Phan, the representative of the instant application on December 26, 2007.

Amend claims as follows:

Claims 6-9, 14, 16 and 24-27 are cancelled.

Allowable Subject Matter

Claims 1-2, 10-13, 15, and 17-23 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The applicant has claimed a variant polypeptide having a substitution at position 162 of SEQ ID NO: 1 having an amino acid sequence of SEQ ID NO: 3, wherein the substituted amino acid is a proline residue having cellulase activity, a washing composition comprising said polypeptide and method of treating fabrics by using said polypeptide. The prior art does not teach a variant polypeptide having a substitution at position 162 of SEQ ID NO: 1 having an amino acid sequence of SEQ ID NO: 3, wherein the substituted amino acid is a proline residue having cellulase activity, a washing composition comprising said polypeptide and method of treating fabrics by using said polypeptide. A standard search did not produce any prior art that suggests or teaches the claimed invention. The claimed invention is novel and nonobvious over the prior art.

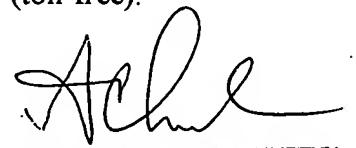

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
